# Vision AI Applications In Manufacturing

## 1. Processing

*Object Classification  
;Segmentation*

## 2. Assembly

*Object Detection; Geo-mapping*

## 5. Logistics

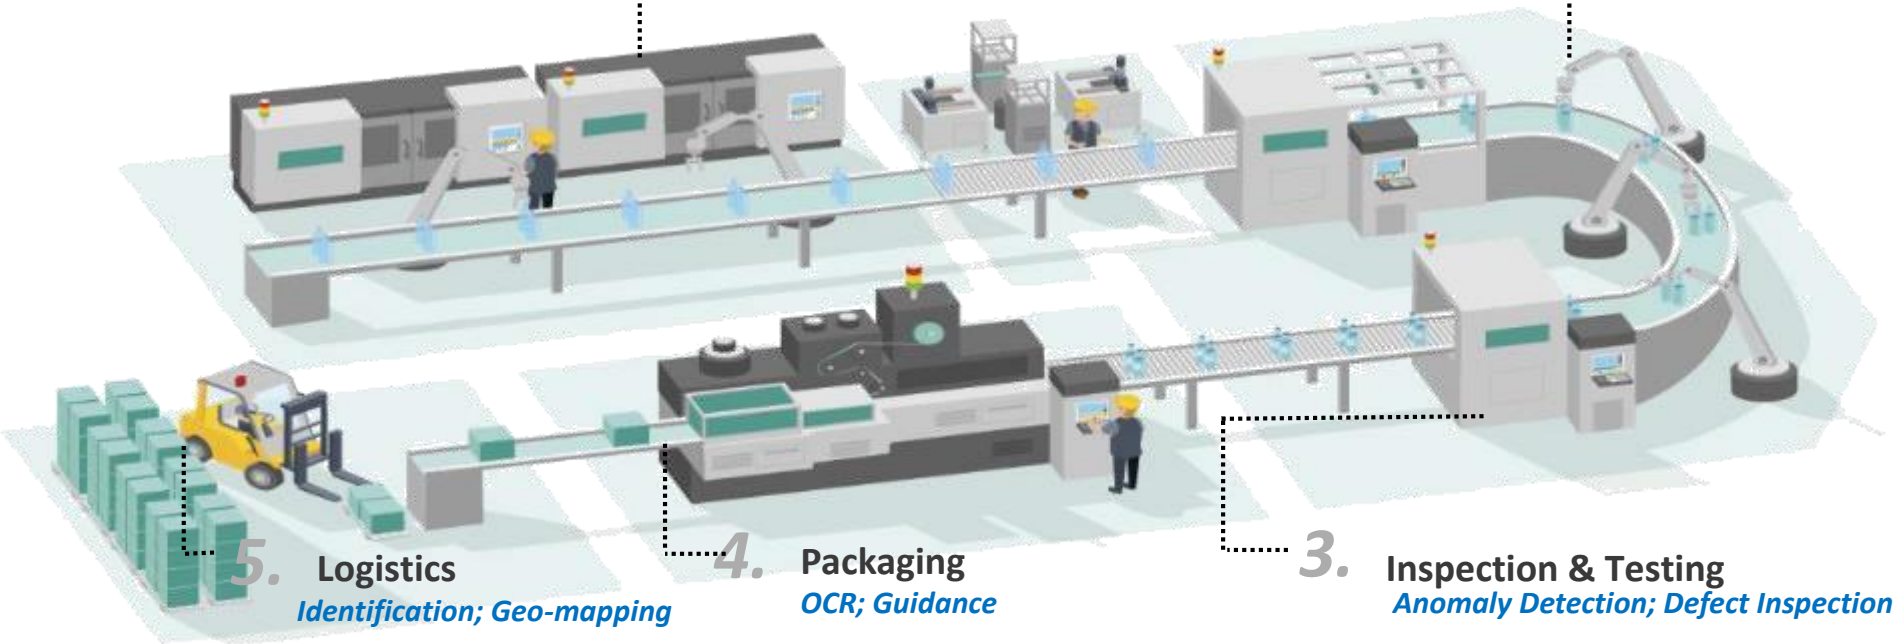

*Identification; Geo-mapping*

## 4. Packaging

*OCR; Guidance*

## 3. Inspection & Testing

*Anomaly Detection; Defect Inspection*

# Application Field

## Inspection

Automotive

Semiconductor

Food and Beverage

## Safety

Machine Tool

Warehouse

# Case 1 – Electronic Fence

User Background: A mechanism vendor in Taiwan.

User Scenario: Prevent hands reach red zone area while operating [Stamping Press machine].

Application

Object  
Detection  
(Hands)

Judge Hands  
Touch Red  
Zone

Alert

CamNavi

Adjust  
camera  
parameter

Camera  
mode =  
Continuous

# Case 2 – OCR (Optical Char Recognition)

User Background: System Integrate partner in Taiwan.

User Scenario: Read the text in image for product traceability or check expiration date.

## Applications

➤ Product Nameplate

➤ Product label

➤ Product expiry date
